

Fast-Phyte High K

Fast-Phyte High K is a liquid fertiliser based on phosphorus in the form of potassium phosphite. Benefits are increased hardiness, plant and root development, better yields and quality and improved plant nutrient health.

Analysis (w/w):

Phosphorous Pentoxide (P_2O_5) - 25.0% (35.0% w/w)

Potassium Oxide (K_2O) - 16.6% (22.0% w/w)

Application Rates:

2.5 - 5.0 l/ha in 500 - 1000 l/ha of water depending on crop density and nutrient need.

Rates expressed as field hectares.

Conditions of Supply

All goods supplied by us are of a high quality and we believe them to be suitable, but as we cannot exercise control over their storage, handling, mixing or use or of the weather conditions before, during or after application which may affect the performance of the goods, all conditions and warranties, statutory or otherwise, as to the quality or fitness for any purpose of our goods are excluded and no responsibility will be accepted by us or re-sellers for any failure in performance, damage or injury whatsoever arising from their storage, handling, application or use. These conditions cannot be varied by our staff or agents whether or not they supervise or assist in the use of such goods.
